Our strategic efforts this year delivered promising outcomes as we strengthened our digital presence, participated in key global expos, and improved internal efficiencies—resulting in faster turnaround times and enhanced customer satisfaction. The IPO launch in FY’25 significantly elevated our national visibility and reinforcing market trust in our business model. These achievements affirm the effectiveness of our operational improvements and lay a solid foundation for accelerated global growth.

A key strategic development in FY’25 has been our renewed focus on global expansion, with strong inroads already made into Europe, the Middle East, and Africa. With international inquiries rising steadily and our export vertical gaining traction, we are building the necessary infrastructure and partnerships to scale these markets substantially from FY’26 onward.

With a strong order pipeline and growing interest from overseas markets, we are confident of maintaining our growth momentum into FY’26 and beyond.

NEW FINANCIAL YEAR’S FOCUS:

In FY’26, our strategic focus will be on deeper global market penetration—specifically targeting Europe, North America, the Middle East, Africa, and Southeast Asia. We aim to leverage our product reliability and engineering strength to expand our footprint in these high-opportunity regions.

We will also continue to enhance our digital outreach, strengthen our brand visibility through participation in international trade shows, and optimize internal processes to further reduce delivery lead times. These initiatives will help reinforce United Heat Transfer Limited’s position as a trusted, globally competitive heat exchanger solutions provider.

Our detailed financial disclosures are available on the company’s website and have been submitted to NSE as per regulatory requirements.
